OEM MANUFACTURING

How it's made and checked

YOROSUM

YOROSUM designs the formula and owns the brand. A specialised, licensed Korean food manufacturer produces it, the same way most leading Korean supplement brands work.

RAW MATERIAL

Fish collagen

Low-molecular collagen peptide from freshwater fish, supplied with specification

EUMSEONG, KOREA

Korea CNS Pharm

Licensed food manufacturer, produced in its own facility

EVERY BATCH

Laboratory testing

Weight, vitamin C, moisture, metal detection and E. coli

BEFORE RELEASE

Certificate of Analysis

Issued for each batch and available to partners

What OEM manufacturing gives you

The same product every time

One fixed formula, made on professional production lines, batch after batch.

Korean food-safety oversight

The factory is licensed and supervised under Korean food law (MFDS).

Complete documentation

Registered formula, specifications and batch test reports ready for import registration.

Specialist know-how

Stick-powder production by a manufacturer that focuses on health foods.

Latest batch test results

BATCH RA88201 · TESTED OCT 2026
